AI/ML and full-stack engineer building multi-agent LLM systems, real-time backends, and Flutter apps – 4 hackathon finishes and a 1-of-200 selection into Anthropic's Claude Impact Lab Mumbai, backed by a 9.0+ CGPA trend. Seeking an internship where I can ship production-grade AI-native software.

SKILLS

Languages	Python, Java, Dart, HTML, CSS, JavaScript
Mobile	Flutter, Dart, Firebase (Auth, Realtime DB, Firestore, Hosting)
Backend	FastAPI, Uvicorn, Pydantic, WebSockets, REST APIs
AI / ML	LangChain, RAG Pipelines, Multi-Agent LLM Systems, Sarvam AI, Featherless AI
Databases	PostgreSQL (Supabase), ChromaDB (Vector DB), Firebase, Neo4j
Tools	Git, GitHub, Figma (UI/UX), Blender 3D, DaVinci Resolve
Soft Skills	Leadership, Project Ideation, Collaborative Teamwork, Creative Problem Solving

PROJECTS

Kumbh Reunite **Anthropic-Partnered** — Claude Impact Lab Mumbai

- Built a missing-person reunification system prototype for the 2027 Nashik Kumbh Mela (80M+ pilgrims), unifying 10 disconnected missing-person centres into a single shared registry.
- Owned the smart PA (public-announcement) broadcast queue and integrated the event's synthetic dataset (2,500 case records, 1,280 CCTV locations, 32 zones) into Firebase to power the working demo.
- Proposed a role-based access model (Volunteer / Supervisor / Police) as part of the system architecture; authored the team's final presentation for video submission.
- Selected as 1 of 200 from 2,000+ applicants for this invite-only, one-day event run in collaboration with Anthropic (Claude), alongside professionals from Reliance Jio, Upstox, J.P. Morgan, Aditya Birla Group, IBM, and EY.

ResQ VoiceForward **Top 40 Finalist** — Airavat 3.0 National Hackathon

- Engineered a real-time AI intelligence layer designed to assist human crisis operators in high-stress environments.
- Integrated Sarvam AI (Saras v3) for live multilingual transcription across 22 Indian languages and English.
- Built a multi-agent system wired via WebSockets to perform live emotion/affect detection and instant risk analysis utilizing Featherless AI deep-risk LLMs.

Ethos **Top 6 Finalist** — Syrus 2026 Hackathon

- Contributed to an AI-powered autonomous developer onboarding platform built to verify developer readiness and minimize HR bottlenecking.
- Built a ticket-resolution feature that scanned past Slack conversations to surface how previous employees solved similar problems, mapping those solutions to new-employee queries.

Vidyasarthi App **Field Project** — Software Engineering

- Engineered a comprehensive institute management app using Flutter and Dart with Supabase, featuring Role-Based Access Control (RBAC) for Admins, Teachers, Students, and Parents.
- Developed dynamic student and parent dashboards for real-time tracking of lecture schedules, test scores, syllabus completion metrics, and fee payment status.

- Built backend administration and teacher tools enabling staff to manage batch creation, schedule lectures, track attendance, and input grades efficiently.
- Delivered a fully functional Android APK, piloted with Indrajeet Academy (Thane) as the real-world client; Play Store publication is the next step.

BloodConnect **Top 10 Finalist** GDG TechSprint

- Co-developed a location-based platform engineered to match blood donors to patients in real-time under tight deadlines.

EDUCATION

VESIT, Mumbai University – B.Tech, Artificial Intelligence & Data Science Sept 2024 – June 2028

CGPA: Semester 1 – 9.36 | Semester 2 – 9.20 | Semester 3 – 9.50 | Semester 4 – 9.08

EXPERIENCE & LEADERSHIP

Public Relations Head, CSI VESIT 2026 – 27

Promoted from Jr. Public Relations Officer (2025–26)

Instructor & Curriculum Architect – "Art in Axes" Workshop, CSI VESIT

- Architected and hosted a comprehensive, end-to-end live 3D modeling workshop utilizing Blender 3D for 60+ absolute beginners.
- Reverse-engineered personal learning hurdles to design a beginner-friendly curriculum, guiding the classroom from a blank canvas to high-quality final renders.
- Spearheaded digital outreach by producing and animating a promotional reel that generated 3,700+ views and strong student engagement.

Digital Outreach – "Beyond Hawkins" Event, CSI VESIT

- Conceptualized and produced a Stranger Things-themed promotional reel for a CSI VESIT event, achieving viral reach within the student community (23,000+ views) and significantly increasing event registrations and engagement.

ACHIEVEMENTS

- Selected for Claude Impact Lab Mumbai (Anthropic-partnered) – 1 of 200 curated from 2,000+ applicants
- National Hackathon Finalist at Airavat 3.0, hosted by IEEE CS SPIT
- Top 6 Finalist at Syrus 2026 Hackathon, organised by CodeCell++ VESIT
- Top 10 Finalist at TechSprint Hackathon, organised by GDG VESIT
- Winner, ISA VESIT's Codopoly 2025
- Conducted a hands-on Blender 3D workshop for CSI VESIT
- Finalist, CSI VESIT's Amazing Race 2025
